**ADDITIONAL NOTES**  
 This marine chart information shown here is reproduced with permission from the Canadian Hydrographic Service. It is provided for illustrative purposes only. It does not meet the requirements of the *Charts and Publication Regulations* and is not to be used for navigation. (There are no depth measurements given, for instance.)

For navigation, you should always use up-to-date marine charts, which are required under the Canada Shipping Act. The Canadian Hydrographic Service nautical charts and publications are available through the office of L.U. Maughan Company Limited (see above), or directly from the federal government at [charts.gc.ca](http://charts.gc.ca) or 1-800-OH-CANADA.

For historical and current information on Georgian Bay water levels, go to [georgianbay.ca/water/water-levels](http://georgianbay.ca/water/water-levels).  
 The original BNIA map is based on the 1:10,000 Ontario Base Map from 1984 Air Photography, © Queen's Printer. This is not an endorsement by the Ministry of Northern Development, Mines, Natural Resources and Forestry, or the Ontario Government.
